Opposed to the Lynn Canal Road

Dear Governor Palin and DOT Commissioner von Scheben,

I would like to submit my formal opposition to the Lynn Canal Road and current plans to link by road the towns of Hoonah and Tenakee. It seems there are many other transportation needs in this state and both of these projects take vital resources away from those other projects. In addition, I would like to encourage DOT to secure more funding for maintaining the infrastructure we currently have and look to finding alternative transportation options, as we need to move away from our need and use of fossil fuels. We need not keep chasing federal dollars for new roads we can not maintain.

Thank you,
Debbie Hart
